Background

The purpose of the CE2T2 program is to exercise and train for joint operations (tactical through strategic), improve the realism and robustness of the training environment, improve joint enabling capabilities, and directly support Combatant Commander theater engagement activities in order to achieve joint readiness of the Total Force and Theater campaign Plan objectives.

CE2T2 Program Goals & Objectives (15 March 2013)

FY14 JEP Current Definition

The JEP is a principal means for CCDRs to maintain trained and ready forces, exercise their theater campaign plan, and achieve **joint** and multinational (**combined**) training. CCDR-sponsored JEP events train to mission capability requirements described in the command JMETL as well as theater security cooperation requirements as directed in theater campaign plans. **JEP events are further categorized in the JTIMS as either CE2 funded JEP events, or CCMD JEP events. This distinction acknowledges that there are some JEP events that do not have CE2 funding associated with their planning and execution, but are still important to achieving the strategic objectives identified in the TCP**.

Decisions Desired

1. JEP definition – What categories of exercises/events should be included in the term “JEP”?

2. Event categories eligible for CE2T2 funding
   a. CE2 funding
   b. T2 funding

3. Criteria for specific event eligibility for CE2T2 funding (dependent on decision(s) # 2 above concerning whether all or some subset(s) of JEP events are to be eligible for CE2T2, CE2 only or T2 only funding)

Terminology

- Event Categories - Definitions based on participation
  - CCMD sponsored
    - Joint – 2 or more US Services
    - Multinational – 1 or more US Services AND 1 or more other nations
  - Service Joint Training Program (JNTC Accredited)
    - Joint – 2 or more US Services
    - Service Multinational – 1 or more US Services AND 1 or more other nations
- JEP definition – TBD by recommendation of which categories above are to be included in the term “JEP”

JEP Definition COAs

Each of these COAs, when combined with funding eligibility COA decision (either unrestricted eligibility or restricted by CE2 and T2 funding), drives a slightly different JEP definition.

Funding eligibility implications

Pros (+) and Cons (-) considerations

Assume Top Line is fixed (or reducing) –
Enterprise must live within current funding controls

If expand eligibility for CE2/T2 funding:
+/- CCMD / Svc set priorities (max flexibility)
+/- Spread funding wider but thinner
- Food fight is messier
+/- Is prioritization required across enterprise?
+/- If prioritization is required, do we require all funding sources to be considered/disclosed (even non-CE2T2)

All CCMD JEP events eligible for CE2 funding only; Svcs cannot compete for CE2 $
All Svc JEP events eligible for T2 funding only; CCMDs cannot compete for T2 $
Only a subset of CCMD JEP events eligible for CE2 funding?
Only a subset of Svc JEP events eligible for T2 funding?
